

UNNAMED TRIBUTARY
Mendocino County

Field Note

Location 5 air miles north of Boonville (T14N, R14W, NE1/4 of Section 13).

Remarks

This small stream is unimportant as a rainbow trout steelhead fishery stream. Recommend no action be taken in currently proposed stream clearance project.

This stream was observed at the confluence of Indian Creek by R. Moore on August 14, 1962. Access to this area was obtained by walking Indian Creek stream bed. No temperature readings were taken. Flow estimated at less than 0.1 cfs.

R. Moore, S/A cd 10-10-62

UNNAMED TRIBUTARY
Mendocino County

Field Note

Location

Approximately 5 air miles northwest of Boonville (T14N, R13W, NW1/2 of Sec, 18)
No stream was observed entering Indian Creek at the area indicated on U.S.
geological survey map Boonville quadrangle 1959 at the confluence of unnamed
tributary and Indian Creek, during stream survey of Indian Creek.

General Estimate

This stream has no fisheries value as indicated by stream survey at confluence
of tributary and Indian Creek.

Recommendations

Recommend no stream clearance project be instigated on this tributary.
Recommend occasional checks for logging damage in area of this tributary.

R. Moore, S/A cd 10-10-62

Field Note

Location

Four air miles northwest of Boonville (T14N, R13W, Sec. 20). The confluence of this unnamed tributary and Indian Creek was observed on August 14, 1962 by Bob Keller and Dick Moore. This unnamed stream is one of several minor tributaries entering Indian Creek in this section. No temperature or other checks were made.

Remarks

This unnamed stream appears to be of very minor importance as a fishery stream.

General Estimate

It estimated no rainbow trout steelhead utilize minor tributaries of Indian Creek in this area.

Recommended Management

1. It is recommended no stream clearance project be conducted on minor tributaries of Indian Creek in this area.
2. It is recommended that occasional checks be conducted for recent logging damage to minor tributaries of Indian Creek in this area.
3. Recommend no downstream release clause to water applications in this area.

R. Moore, S/A cd 10-10-62

Unnamed Tributary # 8

T. 14N R. 13W Sec. 20

Spawning and Nursery Area in miles

1. Now satisfactory for SH & SS 0

2. To be improved 0

3. Available after improvement 0
